PROFESSIONAL SUMMARY

Full-Stack Web Developer with 1+ year of hands-on experience in building and maintaining responsive web applications using HTML, CSS, JavaScript, React, PHP, and MySQL. Skilled in developing interactive user interfaces, integrating databases, writing SQL queries for reporting, and optimizing website performance. Experienced in AI-augmented development using Claude AI, ChatGPT, Blackbox AI, and Gemini to accelerate development and deliver better results. Demonstrates strong attention to detail, adaptability, and problem-solving skills. Passionate about learning modern technologies and contributing to a collaborative and fast-paced development environment.

PROFESSIONAL EXPERIENCE

Self-Employed, Freelance Web Developer

November 2025 – Present

- Developed full-stack web systems and capstone projects for student clients, deployed for LGUs and government offices in Eastern Samar.
- Built systems including complaint management, civil registry archiving, tax mapping, aid monitoring, and customer satisfaction platforms.
- Developed SmartDTR — an employee attendance tracking system using React JS, Tailwind CSS, PHP, and MySQL featuring real-time clock, time tracking, and DTR report generation.
- Delivered complete solutions from planning, development, database design, to deployment using HTML, CSS, JavaScript, PHP, and MySQL.

Web Developer, Cebu Belmont Inc.

March 2025 – October 2025

- Designed, developed, and maintained responsive websites using HTML, CSS, JavaScript, and PHP.
- Handled website maintenance tasks including bug fixing, content updates, monitoring uptime, and improving overall site performance.
- Provided remote IT support by accessing and troubleshooting system and web application issues across departments.
- Wrote and optimized SQL queries using Oracle Database to generate sales, inventory, and operational reports exported as Excel/spreadsheet files.
- Developed a ticketing system for internal department use to streamline issue tracking and resolution.
- Implemented and managed MySQL databases for storing client and program records.
- Collaborated with the team to enhance website features and improve user experience.

Post Production Editor, Eastern Samar Provincial Information Office

July 2024 – January 2025

- Covered official provincial government events including AICS and TUPAD payout activities.
- Captured and edited photo and video content using CapCut for public information dissemination.
- Conducted field coverage and assisted in interviews with beneficiaries and government personnel.

Faculty Intern, Eastern Samar State University – Main Campus

February 2024 – May 2024

- Assisted students by addressing concerns, scheduling appointments, and providing information about the Dean's office processes.
- Utilized Photoshop and video editing software to support the Dean's office in creating visual materials for events and communications.

Web Developer, Infiniteloop Software Development Services

October 2022 – September 2023

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript, ensuring compatibility across multiple devices and browsers.
- Implemented interactive UI components and page functionality based on project requirements and design specifications.
- Optimized website performance and improved code readability by following clean coding standards and best practices.

KEY PROJECTS

SmartDTR — Employee Attendance System | React JS, Tailwind CSS, JavaScript, REST API, PHP, MySQL

- A smart employee attendance tracking system featuring real-time clock, Employee ID-based time tracking with Time In, Lunch Out, Lunch In, and Time Out functions, automated DTR report generation, and a secure admin panel for managing attendance records.

LCR System — Local Civil Registry Digital Archiving System | HTML, CSS, JavaScript, PHP, MySQL, Bootstrap, jQuery, AJAX

- A digital archiving system developed for the Local Civil Registry Office of San Julian, Eastern Samar. Features secure management of Birth, Marriage, and Death records, user management with role-based access control, full audit logs with IP tracking for every user activity, and system Backup & Restore functionality.

LGU-Connect — Client Satisfaction System | HTML, CSS, JavaScript, PHP, MySQL, Bootstrap, jQuery, AJAX

- A government web system developed for the Municipality of San Julian, Eastern Samar in compliance with RA 11032. Features an admin dashboard with analytics, satisfaction trend charts, department comparison, QR code-based feedback, CSMR report generation, and multi-department management.

ESAMELCO Complaint Monitoring & Management System | HTML, CSS, JavaScript, PHP, MySQL, Bootstrap, AJAX, jQuery

- A full-featured complaint management system developed for Eastern Samar Electric Cooperative (ESAMELCO). Features real-time live crew location tracking via GPS map, automated dispatch system that assigns nearest available crew to complaints, complaint ticketing with status tracking (Pending, Ongoing, Resolved), analytics dashboard with complaint trends and type breakdown, and multi-role access for Admin, Crew, and Consumer accounts.

EDUCATION

Bachelor of Science in Information Technology

2020 – 2024

Eastern Samar State University

CERTIFICATIONS

- Facilitator — Seminar-Workshop on Visualization Towards Methodological Skills in Research (April 2023)
- Facilitator — Seminar-Workshop on Data Science and Big Data Analytics with Data Visualization and Website Integration (December 2023)
- Seminar Workshop on Website User Interface Designing (September 2023)
